Coursework Self-Management Report

(Please complete in black font)

Name: Viktor Rosvall

Student login: viro1702

Group Name: Euler

Block 0 (Submit by 21 April, please)

Theory

- 1. Summary submitted on (give date): 28 mars 2019
- 2. Theory commentaries submitted to (give names of candidates): Didrik Storm, Jakob Viking

Problem solving exercises

- 1. Exercises submitted on (give date) (Bonus = 0.5): 1 april 2019
- 2. Moderation sheet submitted on (give date) (Bonus = 0.25): 14 april 2019
- 3. Name of script you moderated: myno1600mod0
- 4. Did you participate in the group discussions about grading of problem solving exercises in class (**Bonus = 0.25**) (yes/no)? **yes**
- 5. (a) What was the grade awarded to you by your moderator? B
- 5. (b) What was the grade awarded to you by your group? A

Block 1 (Submit by 21 April, please)

Theory

- 1. Summary submitted on (give date): 5 april 2019
- 2. Theory commentaries submitted to (give names of candidates): Mikael Danielsson, Lukas Johansson

Problem solving exercises

- 1. Exercises submitted on (give date) (Bonus = 0.5): 11 april 2019
- 2. Moderation sheet submitted on (give date) (Bonus = 0.25): 15 april 2019
- 3. Name of script you moderated: huah1600mod1
- 4. Did you participate in the group discussions about grading of problem solving exercises in class (**Bonus = 0.25**) (yes/no)? **yes**
- 5. (a) What was the grade awarded to you by your moderator? B
- 5. (b) What was the grade awarded to you by your group? A

Seminar

- 1. Give title of seminar to which you contributed: how to break a Vigenere cipher by using a Kasiski test and matching letter distributions by hand
- 2. Were you present during presentation (yes/no)? yes
- 3. Were you part of writing the submitted notes/seminar report (yes/no)? yes
- 4. What was your main contribution to the seminar: Powerpoint and talking

Block 2 (Submit by 13 May, please)

Theory

- 1. Summary submitted on (give date): 24 april 2019
- 2. Theory commentaries submitted to (give names of candidates): Joakim Sjöquist, William Norberg

Problem solving exercises

- 1. Exercises submitted on (give date) (Bonus = 0.5): 28 april 2019
- 2. Moderation sheet submitted on (give date) (Bonus = 0.25): 27 maj 2019
- 3. Name of script you moderated: oled1700mod2
- 4. Did you participate in the group discussions about grading of problem solving exercises in class (Bonus = 0.25) (yes/no)? Yes
- 5. (a) What was the grade awarded to you by your moderator? Endast poäng
- 5. (b) What was the grade awarded to you by your group? B

Seminar

- 1. Give title of seminar to which you contributed: Proof for Euler's generalization of Fermat's Theorem
- 2. Were you present during presentation (yes/no)? yes
- 3. Were you part of writing the submitted notes/seminar report (yes/no)? yes
- 4. What was your main contribution to the seminar: Powerpoint and talking

Block 3 (Submit by 3 June, please)

Theory

- 1. Summary submitted on (give date): 14 maj 2019
- 2. Theory commentaries submitted to (give names of candidates): Amanda Ericson, Tomas Forsberg

Problem solving exercises

- 1. Exercises submitted on (give date) (Bonus = 0.5): 14 maj 2019
- 2. Moderation sheet submitted on (give date) (Bonus = 0.25): 27 maj 2019
- 3. Name of script you moderated: oled1700mod3
- 4. Did you participate in the group discussions about grading of problem solving exercises in class (**Bonus = 0.25**) (yes/no)? **Yes**
- 5. (a) What was the grade awarded to you by your moderator? Endast poäng
- 5. (b) What was the grade awarded to you by your group? A

Seminar

- 1. Give title of seminar to which you contributed: ElGamal cryptosystem Encryption & Decryption
- 2. Were you present during presentation (yes/no)? Yes
- 3. Were you part of writing the submitted notes/seminar report (yes/no)? Yes
- 4. What was your main contribution to the seminar: Powerpoint and talking
